

CAT FISHING ROD TOY

WHAT YOU WILL NEED

Sticky tape
Feathers
String

Ribbon
Scissors
Thin cardboard tube

STEP ONE

Cut a piece of string around 50 centimetres long and tie it to the end of the cardboard tube. Put sticky tape over the knot to stop it falling off.

STEP TWO

Make loops along the string and place feathers in the loop and then tighten to hold the feathers in place. Repeat for the ribbon.

STEP THREE

Twist the end of the string around a cork, tie the string and secure with sticky tape. Stick on feathers to decorate the cork.

STEP FOUR

Now you're ready to play the fishing rod game with your cat - it should get them running around enjoying some healthy exercise! Please don't leave your cat alone with it though, as they may get into a tangle!
