

Mister Maker

Bubble Wrap Octopus

You will need

Bubble wrap
Coloured paper plate
Red paper
White paper
Some PVA glue
Glue stick
Black pen
Paintbrush
Red paint
Some sticky tape

1

Draw two circles onto the white paper and then add a dot into each of them with the black pen. These will be the octopus' eyes.

3

Take the coloured paper plate and stick your eyes and spots to it. Using the black pen draw a little mouth for the octopus.

5

Now cut eight wiggly sausage shapes out of the bubble wrap and attach them to the back of the plate with some sticky tape, making sure the bubble wrap is bubbly side down. Stick the octopus to a piece of coloured card.

Remember to ask a grown-up for help

2

Take the yellow paper and draw some circles for the octopus' spots. Now cut all of these circles out but be careful as scissors are sharp.

4

Mix half red paint and half PVA glue and paint over the bubbly side of the bubble wrap. Leave to dry.
