

Mister Maker

Space Skittles

You will need

Clean plastic bottles with lids
Plastic washing balls
Some paint
Tissue paper
Masking tape
PVA glue
Pens
Glitter
Newspaper
Googly eyes (available from craft shops)

1

Cover a plastic bottle with PVA glue, cover it in bits of ripped up tissue paper. Leave to dry.

Remember to ask a grown-up for help

2

Paint the bottle and leave to dry. The lid will be the spaceman's head and the rest of the bottle will be the space suit.

3

Stick the googly eyes on and then, with the black pen, draw the spaceman's face, uniform, boots and his backpack.

4

Put the plastic washing up ball on top of your spaceman for a perfect fitting space helmet.

5

You now have one skittle. You can make as many as you like but you need to make at least three.
