

Tree Fu Tom

Puppet Butterflies

You will need

Coloured card
Scissors
Glue
Pencil
Modelling clay
Coloured pipe cleaners
Bits and bobs to decorate

1

Fold a sheet of card in half and draw one butterfly wing shape. Cut out this shape. This makes two identical wings.

2

With the wings still folded, draw two lines roughly in the middle of the fold. Cut along these two lines. This will form the finger slot to operate the butterfly.

3

To protect your work surface, put a piece of modelling clay or sticky tack underneath the butterfly and then use a sharp pencil to make a hole.

4

Thread a short pipe cleaner through the hole and twist it round to make the butterfly antennae.

5

Decorate your puppet butterfly with any bits and bobs you like – crayons, pens, stickers, whatever takes your fancy.

Remember to ask a grown-up for help
